About Share Fair

Wednesday 20 March 2024 @ P&J Live, Aberdeen

A key business development event in the industry calendar returns in 2024 when Offshore Energies UK hosts its Share Fair on March 20 at P&J Live in Aberdeen.

Organised with the support of the North Sea Transition Authority, Share Fair aims to deliver value to participants whether buyer or supplier by encouraging early focused engagement on ways to work collaboratively on UK energy projects.

It enables major players to increase their awareness of the expertise, innovative products and specialised services offered by suppliers across the UK. For supply chain companies and technology innovators, Share Fair offers access to invaluable market intelligence regarding upcoming projects plus opportunities to meet key decision-makers in the popular one-to-one meetings.

With informative presentations taking place throughout the day, Share Fair offers participants the ideal arena for networking and for raising company profiles with potential clients as an exhibitor.

With the UK offshore energy industry focused on delivering the UK's net zero ambitions, Share Fair 2024 will include input from organisations with an interest not only in oil and gas but also offshore wind, carbon capture and storage and hydrogen.

Objectives

The primary objectives of the event are to:

- Deliver reliable market intelligence to keep the industry abreast of business opportunities
 - Provide a means for operators and Tier 1 contractors to find solutions to current project blocks
 - Provide a two-way information sharing opportunity
 - Offer the opportunity for the industry supply chain to meet potential new clients as well as strengthen relationships with existing customers
 - Generate a demand-led supply chain system
 - Stimulate discussion and activity between business and clients to address some of the challenges facing the sector
-
