

Illuminating business opportunities for the energy supply chain

Exhibition Opportunities

19 March 2026

P&J Live, Aberdeen

A key business development event in the industry calendar returns in 2026 when Offshore Energies UK hosts its Share Fair on March 19 at P&J Live in Aberdeen.

Organised with the support of the North Sea Transition Authority, Share Fair aims to deliver value to participants whether buyer or supplier by encouraging early focused engagement on ways to work collaboratively on UK energy projects.

It enables major players to increase their awareness of the expertise, innovative products and specialised services offered by suppliers across the UK. For supply chain companies and technology innovators, Share Fair offers access to invaluable market intelligence regarding upcoming projects plus opportunities to meet key decision-makers in the popular one-to-one meetings.

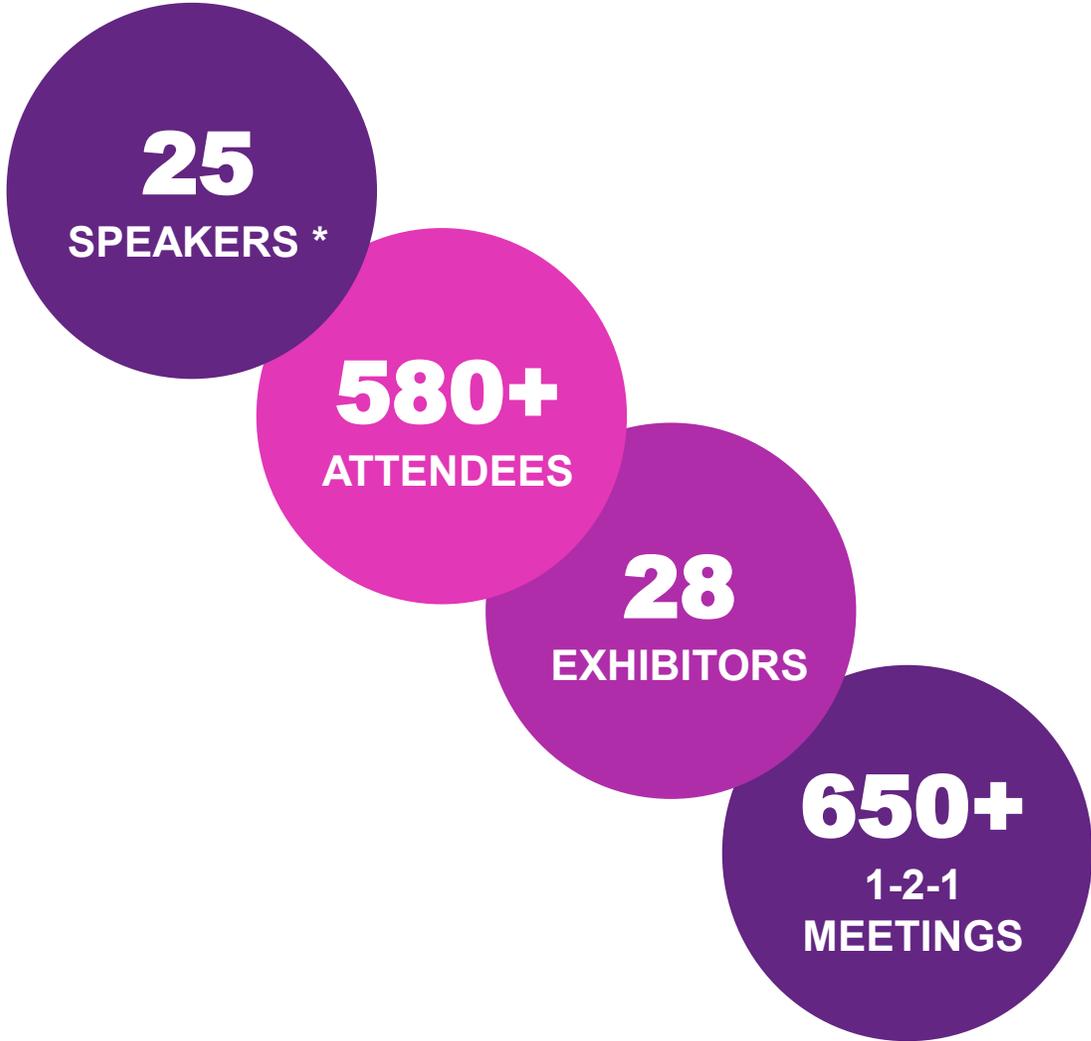

With informative presentations taking place throughout the day, Share Fair offers participants the ideal arena for networking and for raising company profiles with potential clients as an exhibitor.

With the UK offshore energy industry focused on delivering the UK's net zero ambitions, Share Fair 2026 will once again include input from organisations with an interest not only in oil and gas but also offshore wind, carbon capture and storage and hydrogen.

The objectives of Share Fair are to:

- Deliver reliable market intelligence to keep the industry abreast of business opportunities
- Provide a means for operators, developers and contractors to find solutions to current project blocks
- Provide a two-way information sharing opportunity
- Offer the opportunity for the industry supply chain to meet potential new clients as well as strengthen relationships with existing customers
- Generate a demand-led supply chain system
- Stimulate discussion and activity between business and clients to address some of the challenges facing the sector

* Speakers at the 2025 event included representatives from operators, major contractors and developers.

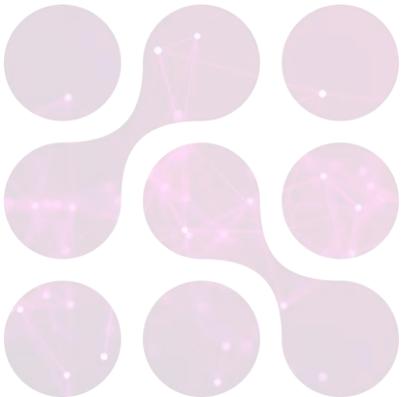

2025 feedback and comments

On behalf of the team, we extend our gratitude for a well-organized and highly informative Share Fair - our best experience yet. The level of 1-2-1 interest was outstanding, allowing us to establish valuable contacts that could significantly benefit our project moving forward.

Had a fantastic and productive day at the OEUK Share Fair. A great mix of operators sharing their plans, challenges, and the innovative solutions they are looking for. Lots of good conversations throughout the day and always great to connect.

A very big thank you and hats off to all involved there with this event. I had 30+ engagements, all bringing value to our Supply Chain function towards supporting the development of our OSW Projects. The 15min 1:1 slot and time keeping globe light was extremely effective.

A lot of people commented to me that they prefer this event to Offshore Europe as it is a better size and feels more personable and more engaging to the Suppliers.

Your Opportunity

Exhibiting at the OEUK Share Fair 2026 will allow you the opportunity to raise your company's profile, products and services, to network with other delegates and talk to them directly.

- Align your company with this key industry event and promote your products and services to a targeted audience of decision makers and buyers
- Capitalise on networking with industry in-person
- Network with over 650 industry colleagues
- 24-hour early access to book your one-to-one appointments
